Aadeel Peerally

Product Leader · Berlin · aadeelp290181@gmail.com · LinkedIn · aadeelp.com

Product Leader with 15 years in payments, marketplaces and B2B platforms. I stay hands-on in every role and have led product organisations of up to 12 people.

- **Payments and cost.** Cut annual payment processing costs by €5M+ at Delivery Hero and by nearly 50% at AMBOSS.
- **Platforms at scale.** Moved 20+ countries onto one financial platform at Delivery Hero. Created the system of record behind 500+ monthly active users at PVcase.
- **Trust and risk.** Cut platform fraud by over 90% at WeSwap, a peer-to-peer currency exchange platform.
- **AI that saves time.** Launched AI-Assisted Design Review, which cuts review cycle times by 50% with structured compliance checks that a person signs off. Built Arnie OS, 10+ AI agents that automate research, PRDs and reporting for my PMs.
- **Leading teams.** Led and developed teams of varying sizes, from four Senior Product Managers at PVcase to a 12-person organisation at Delivery Hero. Established objective decision making, weighing customer insight, market reality and return on investment, and connected business goals to each team's day-to-day work.

EXPERIENCE

Product Director – Platform

PVcase (remote) · Nov 2024 – present

- Lead four Senior Product Managers, hiring, coaching and managing performance.
- 0-1 delivery of PVcase Platform, which connects four products around one project record, driving usage to 500+ monthly active users.
- Scoped and delivered AI-Assisted Design Review, an LLM workflow reducing design review cycle times by 50%, after securing executive and Legal sign-off before build investment.
- Built Arnie OS, a multi-agent system with defined tool permissions and escalation logic. Senior PMs use it for research, PRDs and reporting. I used it to deliver AI-Assisted Design Review from idea to shipped in under a month, with a working prototype in under a week.
- Cascade business outcomes into tracking metrics and goals that each team owns, reported in automated weekly company-wide reports.
- Architected Pipeline Intelligence, a cross-product data model that unlocked €2 million in partnership deals.

Product Director

AMBOSS (Berlin) · Jul 2022 – Sep 2024

- Led three Senior Product Managers and a Product Data Analyst. Accountable for growth, adoption and retention across global markets, with a focus on user acquisition in the US.
- Brought a fragmented payment set-up into one system: processing costs down by nearly 50%, payment success rates up by 4%, time-to-market for campaigns and new products down from weeks to hours, and engineering dependency down by 50%.
- Raised purchase-path conversion by over 30% and average order value by 20%.
- Raised student user tenure by over 20% and converted students into clinician users.

Product Director

Delivery Hero (Berlin) · Aug 2020 – Jan 2022

- Owned the payment gateway for a high-volume, multi-sided marketplace across 50 countries. Migrated 20+ countries onto one financial platform across APAC, LATAM and Europe, including support for cash payments in LATAM and APAC.
- Cut annual processing costs by €5M+ and lifted payment success rates by 1.5%+.
- Partnered with business teams on payment service provider (PSP) tenders and contract negotiations with Checkout.com, Adyen, Stripe, Mercado Pago and Asian providers.
- Ran cross-functional rollouts across regulatory, engineering and regional operations. Managed a 12-person product organisation and raised sprint predictability by 30%.

Product Director

Equals (London) · Jun 2019 – Aug 2020

- Coordinated end-to-end product development across international payments, expense management, travel money and currency trading.
- Launched Card Issuing products and Currency Exchange trading tools.
- Improved the activation journey through data analysis and A/B testing: cost per acquisition down 22%, order frequency up 12%.

Chief Product Officer

WeSwap (London) · Jan 2016 – May 2019

- Led mobile and web product strategy and scaled the peer-to-peer currency exchange platform to 500,000+ users.
- Introduced new payment methods, doubling monthly active users and raising card-load frequency by 37%.
- Launched Smart Swap, raising average order value by 32%, and built community features that cut acquisition costs by 50%.

Head of Operations

WeSwap (London) · Dec 2014 – Dec 2015

- Hired and led the fraud, compliance and customer support teams.
- Drove technical integrations with Stripe, LexisNexis and Salesforce. Better transaction monitoring and reporting cut platform fraud by over 90%.

Co-founder

TryMyKitchen (London) · Jan 2015 – May 2020

- Founded and launched a self-serve marketplace for cooking classes, growing to over 8,000 classes across Europe and North America. Partnered with Jamie Oliver cooking schools and Heineken.

Product Manager

Guardian News and Media (London) · Feb 2013 – Dec 2014

- Launched the Guardian Membership programme in September 2014.

Various operations and product roles

HostelBookers (London) · May 2007 – Jan 2013
